 Bengaluru, India (Open to Remote)

PROFESSIONAL SUMMARY

Full-Stack Engineer with 4 years of experience building scalable APIs, cloud-native microservices, and responsive React front-ends. Strong background in Node.js, PostgreSQL, Docker, and AWS. Passionate about clean architecture, test-driven development, and DevOps automation. Seeking a senior engineering role where I can drive product impact at scale.

TECHNICAL SKILLS

Languages	JavaScript (ES2022), TypeScript, Python, SQL	Backend	Node.js, Express.js, REST APIs, GraphQL
Frontend	React, Next.js, Vite, TailwindCSS	Databases	PostgreSQL, Supabase, Redis, MongoDB
DevOps / Cloud	Docker, Docker Compose, GitHub Actions, AWS (EC2, S3, RDS)	Testing	Jest, Supertest, Cypress, Playwright

WORK EXPERIENCE

Razorpay · Bengaluru Jul 2023 – Present
Senior Software Engineer — Payments Platform

- Designed and owned the payment-retry microservice handling **8 M+ transactions/day**, reducing false decline rate by 14%.
- Migrated a monolithic Node.js API to Docker-based microservices, cutting deployment time from 40 min to 6 min via GitHub Actions CI/CD.
- Built a real-time webhook event dashboard (React + WebSocket) used by 1 200+ merchant integrations.
- Led a team of 3 engineers; ran sprint planning, PR reviews, and production on-call rotations.

Freshworks · Chennai Aug 2021 – Jun 2023
Software Engineer — CRM Backend

- Built RESTful APIs for the Freshsales CRM using Node.js + Express, serving 50 K+ concurrent users.
- Improved query performance by 3× by introducing PostgreSQL partial indexes and query plan analysis.
- Implemented automated integration tests with Jest + Supertest, raising branch coverage from 48% to 81%.
- Containerised local development environment with Docker Compose, onboarding new devs 4× faster.

HashedIn by Deloitte · Bengaluru Jan 2021 – Jul 2021
Software Engineer Intern → Junior Engineer

- Developed React components for a US healthcare portal, reducing load time by 30% via code-splitting.
- Wrote Terraform scripts to provision AWS infrastructure (EC2, RDS, S3) for a client project.

PERSONAL PROJECTS

DevPulse *Node.js · PostgreSQL · React · Docker · GitHub Actions*

- Open-source developer activity tracker; 420+ GitHub stars. Aggregates commits, PRs, and reviews into a team dashboard.
- Fully Dockerised with multi-stage builds; CI/CD pipeline publishes to GHCR on every merge to main.

QuickInvoice API *Express.js · Supabase · PDF generation · Stripe*

- SaaS invoice generator with Stripe payment collection; 300+ active freelancer users.
- Deployed on AWS EC2 behind a load balancer; 99.8% uptime over 18 months.

EDUCATION

B.Tech, Computer Science & Engineering

2017 – 2021 · CGPA 8.7/10

PES University, Bengaluru

CERTIFICATIONS

- AWS Certified Developer – Associate (2023)
- Docker Certified Associate (2022)
- Meta Back-End Developer Professional Certificate — Coursera (2021)
