 Bengaluru, India (Open to Remote)

PROFESSIONAL SUMMARY

Machine Learning Engineer with 4 years of hands-on experience designing, training, and deploying NLP and predictive models in production environments. Proficient in **Python**, **PyTorch**, and **scikit-learn**; experienced with **MLflow** experiment tracking, **FastAPI** model serving, and **GCP** cloud infrastructure. Passionate about bridging research and production — building ML systems that are reproducible, observable, and scalable.

TECHNICAL SKILLS

Languages	Python (primary), SQL, Bash, JavaScript	ML / DL Frameworks	PyTorch, scikit-learn, HuggingFace Transformers, XGBoost, LightGBM
NLP	Text classification, NER, Sentence Embeddings, Fine-tuning BERT/RoBERTa	MLOps	MLflow (tracking, registry, model serving), DVC, Weights & Biases
Model Serving	FastAPI, TorchServe, BentoML, Docker	Cloud / Infra	GCP (Vertex AI, Cloud Run, BigQuery, GCS), AWS S3 & EC2
Databases	PostgreSQL, SQL, BigQuery, Redis feature store	DevOps	GitHub Actions CI/CD, Docker, Kubernetes (basic), Terraform

WORK EXPERIENCE

PhonePe · Bengaluru Aug 2023 – Present

Machine Learning Engineer — Risk & Fraud Intelligence

- Built an end-to-end **NLP** pipeline using **PyTorch** + HuggingFace to classify merchant dispute descriptions, reducing manual review queue by 38%.
- Developed and deployed 6 fraud-detection models with **scikit-learn** and XGBoost; tracked all experiments with **MLflow** (100+ registered model versions); pushed best models to **GCP Vertex AI** endpoints.
- Served inference via **FastAPI** microservices on **GCP** Cloud Run; latency p95 < 40 ms at 2 000 req/s peak traffic.
- Maintained feature store backed by **PostgreSQL** + Redis; wrote complex **SQL** pipelines on BigQuery for training data extraction.
- Mentored 2 junior ML engineers; ran weekly model review and A/B test readouts.

Sigmoid Analytics · Bengaluru Jul 2021 – Jul 2023

Data Scientist → ML Engineer

- Delivered NLP-powered ticket routing system for a Fortune 500 retail client: fine-tuned RoBERTa with **PyTorch**, served via **FastAPI** on **GCP** Cloud Run; 91% accuracy on 42-class classification.
- Built demand-forecasting pipeline using **scikit-learn** + LightGBM; managed 30+ feature engineering experiments tracked end-to-end in **MLflow**.
- Automated model retraining on GCP Vertex Pipelines; models retrained weekly from BigQuery **SQL** feature snapshots with zero manual intervention.

- Containerised all ML services with Docker; wrote GitHub Actions workflows for CI/CD into GCP Artifact Registry.

Saama Technologies · Chennai

Jan 2021 – Jun 2021

Data Science Intern → Associate Data Scientist

- Built text extraction pipeline (spaCy + regex) for clinical trial PDFs; reduced labelling effort by 60% using **NLP**-assisted pre-annotation.
- Trained **scikit-learn** survival models on patient outcome data using **SQL**-extracted cohorts from PostgreSQL; achieved 0.76 C-index.

PERSONAL PROJECTS

SentimentLens *PyTorch · HuggingFace · FastAPI · MLflow · GCP Cloud Run · Docker*

- Open-source real-time sentiment analysis API; 600+ GitHub stars. Fine-tuned DistilBERT on **PyTorch** for product review classification (94% F1).
- Full MLOps stack: **MLflow** experiment tracking → model registry → automated deployment to **GCP** Cloud Run via GitHub Actions.
- API served with **FastAPI**; handles 500 req/s with async batching.

ResumeRank *Python · scikit-learn · NLP · PostgreSQL · FastAPI*

- Automated resume screener using TF-IDF + cosine similarity (**scikit-learn**) and a fine-tuned BERT bi-encoder (**PyTorch**) for semantic skill matching.
- REST API built with **FastAPI**; candidate rankings stored in **PostgreSQL** via **SQL** queries; used by 3 hiring managers.

EDUCATION

B.Tech, Computer Science & Engineering (Machine Learning Elective Track)

2017 – 2021 · CGPA 8.9/10

PES University, Bengaluru

Deep Learning Specialization (5-course)

Completed 2021

Coursera · deeplearning.ai (Andrew Ng)

CERTIFICATIONS

- Google Cloud Professional Machine Learning Engineer (2024)
- MLflow Certified Practitioner — Databricks (2023)
- AWS Certified Machine Learning – Specialty (2022)
- PyTorch Developer Certificate — Meta AI (2022)

PUBLICATIONS & TALKS

- "Scalable NLP Pipelines with FastAPI and GCP Vertex AI" — PyCon India 2023 (talk)
- "Efficient MLflow Experiment Tracking for PyTorch Workflows" — Towards Data Science (2022, 4.2k reads)
